RE: State of Arizona
Dept. Environmental Quality Contract
Solicitation # SCC06000

Dear Chuck:

This letter is to serve as verification that your insurance policy limits are adequate for the requirements set out in section 4.32.3 of the above referenced contract. I have reviewed the above captioned contract/lease for insurance purposes only, specifically sections Environmental Consultants & Testing 4.32.3 Insurance Requirements. Our recommendations and/or comments are limited to compliance with insurance requirements. The Mahoney Group can not provide legal advice and strongly recommends you review the contract in its entirety with your attorney.

Your policy has been endorsed for blanket additional insured and blanket waiver of subrogation if required by written contract. Auto liability requires the addition of an additional insured endorsement. Your carrier has agreed to provide this endorsement for the additional premium quoted. As discussed, if your bid is successful, we will order the endorsement at that time.

Your umbrella liability policy includes the employer's liability as an underlying policy. The combination of these two policies exceeds the limits required by the contract.

Your professional environmental consultant's liability policy limits are also adequate for the contract, but it does not provide broad contractual indemnification language.

Should you have any questions, please don't hesitate to give us a call.

Sincerely,

Drew A. Newton, CPCU, ARM , CIC
